

Thought Leadership Driving Results

Who we are

Trascent Arabia provides global expertise in facilities management with local insights across Saudi Arabia and the Gulf region.

Trascent Arabia enhances facilities management (FM) service quality and efficiency through best practices in contracting and managing FM services. Drawing from Trascent's experience in advising more than 20% of the Fortune 500 on outsourcing FM across diverse markets, the company addresses unmet market demands by offering cutting-edge advisory, contract management, and program management services.

Trascent Arabia is led by an experienced executive team with deep knowledge of local dynamics and global FM best practices.

Delivering Services in:

- ◆ **Facilities Management Advisory**
Advising clients on how to structure FM contracts, develop service specifications and deploy best practices in commercial models.
- ◆ **Facilities Management Program Management**
Overseeing key client initiatives, including energy efficiency and sustainability projects, ensuring their effective and timely implementation.
- ◆ **Facilities Management Contract Execution & Management**
Providing a single point of contact for ensuring compliance performance across FM contracts.

What we do

Trascent Arabia provides management consulting, contract management, and program management services to help companies optimize their facilities management operations.

The firm is committed to facilities management excellence across Saudi Arabia and the Gulf region. It provides innovative solutions aligned with Saudi Vision 2030, which focuses on transforming the way facilities management services are delivered across the Middle East region.
